

Thank you for your interest in a custom event from Denver Flash Mob. Here is more information on our custom flash mob package:

What You Get

- You get a unique, custom flash mob dance to the song of your choosing. Our choreographers work hard to create a dance that is fun and easy for everyone to learn.
- We record a video teaching how to do the dance. We post that on our YouTube channel so each dancer can practice and learn on their own schedule.
- We work with you to pick the best time, song, and location for your event.
- Our experienced, expert planning team will scout out the location before the event and ensure everything works as planned so you don't have to worry.
- We create a unique Facebook event page for your event to coordinate and share updates with you and all participants.
- We share your event with our email list, Facebook page, and Twitter accounts with a combined follower count of nearly 5,000 people.
- We will either bring a sound system or work with your event planners to ensure we have quality music when it is time to get dancing.
- We record each flash mob to share with your and our fans (unless you request otherwise).

What We Need From You

- **Open communication** – Be clear about what you are looking for so we can make you happy
- **Dancers** – Our followers are all volunteers, so we cannot guarantee a specific turnout. We ask that you bring 10-20 dancers to ensure a successful event. (If your event is private, such as a wedding or business function, you may be responsible for bringing all of the dancers)
- **6-8 weeks** – It takes us time to create a new dance, scout out the location, and make your event come to life. Depending on the complexity, we need about 6-8 weeks to plan it all out and teach your dancers what they need to know.

Payment

We accept payment via PayPal, cash, or business check. We require a \$100, non-refundable deposit when we start the choreography process and the remainder one week prior to your event.

Any Questions?

Feel free to contact us anytime. Send an email to Eric@denverflashmob.com for more details and to start our flash mob planning process.
